Corporate Social Investment

Invest in the communities where we operate.

Summary Of Mining Projects And Investment Opportunities

The Zimbabwe Mining Development Corporation (ZMDC) invites interested investors to take advantage of the wide range of investment opportunities available in its portfolio. The opportunities vary from contracts, Joint Ventures and other opportunities.

Our portfolio covers a variety of minerals which include: precious metals, precious stones, base minerals, industrial minerals and energy minerals.

The available Investment projects are summarized below:-

	MINING LOCATION	INVESTMENTS STATUS	INVESTMENTS OPPORTUNITY
NICKEL	Hunters Road Mine Mvuma Nickel Project Elmo Nickel Project	Joint Ventures contracts for Nickel concentrate ready for consumption	Build and operate a nickel smelter, Ferro nickel production and refinery
COALBED METHANE	Mhungu - Lupane Gwayi - Lupane	Joint Ventures already running for both properties	Investment through our partners to build and operate downstream operation e.g: - Power plant LPG plant or fertiliser plant

Zimbabwe Mining Development Corporation

Zimbabwe Mining Development Corporation (ZMDC) has gone into Joint Venture partnerships with a number of partners as part of the partial privatisation of seventeen (17) of its subsidiaries as enshrined in the National Development Strategy One (NDS1). ZMDC and its partners are expected to contribute directly US\$600 million towards a US\$12 Billion Zimbabwe Mining Sector by 2023. In this spirit of promoting investment that the Government of Zimbabwe is vigorously pursuing, this brochure seeks to share some of its assets that are available for investment.

VISION

A sustainable USD30 Million mining house by 2023

MISSION

To engage in sustainable mining development and beneficiation for the benefit of all stakeholders
